REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the limitations reciting an apparatus for producing discontinuous lengths of filament including a sensor system to generate signals representing actual current roll property of each rolls as claimed and an actual current radial spacing between the rolls as claimed, and a control system being operable to generate drive command based on predetermined control parameters and the signals from the sensor system to synchronize the sensed roll properties and to position the rolls radially as claimed in combination with other limitations set forth in claims 15 and 24 are not anticipated or made obvious by the prior art. For example, Cote discloses variable velocity cutting cylinders with a control device to control an angular velocity in order to cut signatures of a desired length. Green discloses a sensor system and a control system to control a rotating knife to cut the workpiece into predetermined lengths. Okahashi discloses a clearance detecting means to detect a clearance and a clearance adjusting unit for adjusting the clearance. However, Cote, Green, and Okahashi, alone or in combination, do not disclose the apparatus for producing discontinuous lengths of filament as claimed including the sensor system to generate signals representing actual current roll property of each rolls as claimed and an actual current radial spacing between the rolls as claimed, and the control system being operable to generate drive command based on predetermined control parameters and the signals from the sensor system to synchronize the sensed roll properties and to position the rolls radially as claimed in combination with other limitations set forth in claims 15 and 24.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Choi whose telephone number is 703-306-4523. The examiner can normally be reached on Monday-Friday 9:00-3:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan Shoap can be reached on 703-308-2187. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
